SUMMARY

***Junior Data Analyst** with 20+ years in enterprise economics and cost analysis and a GoIT Data Analytics certificate (348 hours, 2026). I combine this business depth with SQL, Tableau, Power BI, and Data Studio (formerly Looker Studio) to turn raw data into decision-ready dashboards. Portfolio projects cover SaaS revenue metrics (MRR, LTV, churn), cross-channel marketing efficiency (CPL, ROMI), cohort-based user retention, and sales reporting. Seeking a role where business context drives the numbers.*

TOOLS

SQL (PostgreSQL, BigQuery), Tableau, Power BI (Power Query, DAX), Data Studio (formerly Looker Studio), Microsoft Excel, Google Sheets, Python (pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook - coursework), DBeaver, 1C ERP.

HARD SKILLS

Data Analysis, Data Cleaning, Data Modeling (Star Schema), SQL (CTEs, Window Functions, JOINS, UNION ALL), Cohort Analysis, Retention & Churn Analysis, SaaS Metrics (MRR, ARPPU, LTV, Churn Rate), Marketing KPIs (CTR, CPC, CPL, ROMI), Descriptive Statistics, A/B Testing, ETL Processes, Data Visualization, Dashboard Development, Business Intelligence, Financial Analysis, Forecasting, Data Storytelling.

ANALYTICAL SKILLS

Financial/Cost Analysis, KPI Monitoring, Reporting, Budget Planning, and Data Validation.

SOFT SKILLS

Analytical thinking, Attention to detail, Time management, Critical Thinking, and Active listening.

PROJECT EXPERIENCE

Revenue Metrics Dashboard

https://github.com/olia-v-rudneva/olia-v-rudneva/tree/main/projects/revenue_metrics_dashboard

Tech: SQL (PostgreSQL/DBeaver - CTEs, window functions LAG/LEAD), Tableau Public (parameters, dynamic KPI titles, dashboard navigation).

Summary: Decomposed monthly SaaS MRR change into New, Expansion, Contraction, Churn, and Back-from-Churn and

calculated ARPPU, LT, LTV, Churn Rate, and Revenue Churn Rate. Exposed a "leaky bucket": in December, \$2,981 of new and expansion MRR was fully absorbed by \$4,328 of contraction and churn, leaving Net New MRR at just \$15 against \$8,440 of MRR, while User Churn Rate peaked at 35.7%.

Marketing Performance Analysis

https://github.com/olia-v-rudneva/olia-v-rudneva/tree/main/projects/marketing_performance_analysis

Tech: SQL (PostgreSQL/DBever - UNION ALL, UTM parsing, URL decoding), Tableau Public (LOD expressions, parameters).

Summary: Unified Facebook Ads and Google Ads daily logs into one dataset and built CTR, CPC, CPM, CPL, and ROMI metrics in an interactive executive dashboard. Found a 0.78 spend-to-lead correlation, identified Brand campaigns as the CPL outlier, and recommended shifting budget toward lower-cost Expansion campaigns.

User Retention & Cohort Analysis

https://github.com/olia-v-rudneva/olia-v-rudneva/tree/main/projects/user_retention

Tech: SQL (PostgreSQL/DBever), Google Sheets (Pivot Tables, Slicers, Conditional Formatting).

Summary: Cleaned and parsed inconsistent date formats using SQL CASE and text functions. Built interactive triangular cohort matrices to calculate the monthly Retention Rate across 6 monthly cohorts; by Month 5, organic users retained 56% vs. 9% for promo users, flagging low-quality promo acquisition.

Sales Analysis Dashboard

https://github.com/olia-v-rudneva/olia-v-rudneva/tree/main/projects/sales_analysis_dashboard

Tech: Data Studio (formerly Looker Studio), SQL (custom queries, multi-table JOINS).

Summary: Built a unified dataset with multi-table SQL JOINS, created calculated revenue fields, and designed an interactive executive dashboard with cross-filtering and 5 KPI scorecards. Tracked 31.4M UAH across 475 orders in Q1 2024 and found that ~30% of revenue carried no loyalty status — a data-quality gap that blocks segment analysis.

Academic Performance Overview Dashboard

https://github.com/olia-v-rudneva/olia-v-rudneva/tree/main/projects/academic_performance_overview_dashboard

Tech: Power BI, Power Query, DAX.

Summary: Modeled multi-source data on a star schema with advanced DAX and time intelligence (MoM%, YTD); surfaced a seasonal December grade dip (+3.47% MoM rebound) and flagged underperforming classes and subjects for targeted support. Designed a 4-page interactive report with drill-through and tooltip pages.

WORK EXPERIENCE

PrAT "Severodonetsk Association Azot"

Deputy Head of Sales Department — Aug. 2019 – Aug. 2025.

Key Responsibilities: Managed and coordinated product distribution and logistics via rail and road transport; developed strategic business plans and contracts; led a sales team of 10 employees; managed a client database of more than 200 accounts. Streamlined product complaint data processes directly with production units.

Achievements: Successfully optimized the reporting framework and improved sales reporting workflows; expanded and maintained a large-scale corporate client database.

1st Category Planning Economist – Sep. 1999 – Aug. 2019.

Key Responsibilities: Analyzed and forecasted economic and business operations; managed cost-benefit analysis, pricing, and budgeting processes. Formulated and tracked production cost structures and created advanced technical reports within 1C ERP.

Achievements: Managed labor cost calculations and payroll budgeting systems, improving financial forecasting accuracy over a 20-year tenure.

VOLUNTEER EXPERIENCE – May 2022 – Jun. 2025

Key Responsibilities: Volunteer Project Co-coordinator. Organized and supervised the production and logistics of bakery products for community relief. Coordinated support initiatives for orphanages and shelters in the Volyn region.

EDUCATION & COURSES

IT School GoIT. Data Analytics (Certificate, 348 hours, ID 47983)
Core focus: SQL (PostgreSQL, BigQuery), Google Sheets, Data Studio (formerly Looker Studio), Power BI (Power Query, DAX), Tableau, Amplitude, Python (pandas, Matplotlib, Seaborn), statistics, and A/B testing.
Mar. 2026 - Sep. 2026

Volodymyr Dahl East Ukrainian National University.
Master's degree in Enterprise Economics (Engineer-Economist)
Sep. 1995 - Jan. 2001

Google AI for Business.
AI tools for business process optimization and productivity improvement.
Completed: Dec. 2025

LANGUAGES

English: Intermediate (B1).
Ukrainian: Native.
