Languages

English: Intermediate (B1)

Ukrainian: Native

Tools

SQL (PostgreSQL, BigQuery), Tableau, Power BI, Power Query, DAX, Data Studio, Excel, Google Sheets, Python (pandas, Matplotlib, Seaborn - coursework), 1C ERP.

Hard Skills

Data Cleaning & Modeling, SQL (CTEs, Window Functions), Cohort & Retention Analysis, SaaS Metrics (MRR, LTV, Churn), Marketing KPIs (CPL, ROMI), A/B Testing, Descriptive Statistics, ETL, Dashboard Development, Data Storytelling, Forecasting.

SUMMARY

***Junior Data Analyst** with 20+ years in enterprise economics and cost analysis and a GoIT Data Analytics certificate (348 hours). I combine business depth with SQL, Tableau, Power BI and Data Studio (formerly Looker Studio) to turn raw data into decision-ready dashboards, from SaaS revenue metrics and marketing efficiency to cohort retention. Seeking a role where business context drives the numbers.*

PROJECT EXPERIENCE

Revenue Metrics Dashboard [View project](#)

Tech: Tableau Public (parameters, dynamic KPI titles), PostgreSQL (CTEs, LAG/LEAD).

Summary: Decomposed SaaS MRR change into New, Expansion, Contraction, Churn, and Back-from-Churn; calculated ARPPU, LTV, and Churn Rate. Exposed a "leaky bucket": December's \$2,981 of new and expansion MRR was absorbed by \$4,328 of contraction and churn — Net New MRR of just \$15.

Marketing Performance Analysis [View project](#)

Tech: PostgreSQL (UNION ALL, UTM parsing), Tableau Public (LOD expressions, parameters).

Summary: Unified Facebook and Google Ads logs and built CTR, CPC, CPL, and ROMI metrics. Found a 0.78 spend-to-lead correlation, flagged Brand campaigns as the CPL outlier, and recommended shifting budget to Expansion campaigns.

User Retention & Cohort Analysis [View project](#)

Tech: PostgreSQL (CASE, text functions), Google Sheets (pivot tables, slicers, conditional formatting).

Summary: Cleaned inconsistent date formats in SQL and built triangular cohort matrices for 6 monthly cohorts. By Month 5, organic users retained 56% vs. 9% for promo users, flagging low-quality promo acquisition.

Academic Performance Overview Dashboard [View project](#)

Tech: Power BI, Power Query, DAX.

Summary: Star-schema model with DAX time intelligence (MoM%, YTD) in a 4-page report with drill-through and tooltips; surfaced a December grade dip (+3.47% MoM rebound) and flagged underperforming classes and subjects.

Analytical Skills

Financial/Cost
Analysis, KPI
Monitoring, Reporting,
Budget Planning, Data
Validation.

Soft Skills

Analytical thinking,
Attention to detail,
Time management,
Critical Thinking,
Active listening.

Education & Courses

IT School GoIT
Data Analytics -
Certificate (348 hours)
SQL, Tableau, Power
BI, Data Studio,
Python, A/B testing
Mar. 2026 - Sep. 2026

Volodymyr Dahl East
Ukrainian National
University.
Master's degree in
Enterprise Economics
(Engineer-Economist)
Sep. 1995 - Jan. 2001

Google AI for Business.
Completed: Dec. 2025

WORK EXPERIENCE

PrAT "Severodonetsk Association Azot"

Deputy Head of Sales Department – Aug. 2019 – Aug. 2025

Key Responsibilities: Managed and coordinated product distribution and logistics via rail and road transport; developed strategic business plans and contracts; led a sales team of 10 employees; managed a client database of more than 200 accounts. Streamlined product complaint data processes directly with production units.

Achievements: Successfully optimized the reporting framework and improved sales reporting workflows; expanded and maintained a large-scale corporate client database.

1st Category Planning Economist – Sep. 1999 – Aug. 2019

Key Responsibilities: Analyzed and forecasted economic and business operations; managed cost-benefit analysis, pricing, and budgeting processes. Formulated and tracked production cost structures and created advanced technical reports within 1C ERP.

Achievements: Managed labor cost calculations and payroll budgeting systems, improving financial forecasting accuracy over a 20-year tenure.

VOLUNTEER EXPERIENCE – May 2022 – Jun. 2025

Key Responsibilities: Volunteer Project Co-coordinator. Organized and supervised the production and logistics of bakery products for community relief. Coordinated support initiatives for orphanages and shelters in the Volyn region.
