Luts'k, Ukraine, +38(050)345-1888 (Viber/WhatsApp), olia.v.rudnieva@gmail.com, Telegram: [@RudnievaOlha](https://www.linkedin.com/in/olha-rudnieva-2b6838418/)

Languages

English: Intermediate,
Ukrainian: Native

Tools

SQL - BigQuery & PostgreSQL, Power BI, Python (Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook - coursework), Microsoft Excel, Google Sheets, Power Query, DAX, Data Studio, Tableau, 1C ERP.

Hard Skills

Data Analysis, Data Cleaning, Data Modeling, Cohort Analysis, Descriptive Statistics, ETL Processes, Data Visualization, Business Metrics (Retention, Conversion), Business Intelligence, Financial Analysis, Dashboard Development, Forecasting, A/B Testing, Data Storytelling.

SUMMARY

Junior Data Analyst with 20 years in enterprise economics and cost analysis, now combining this business depth with SQL, Power BI, and Google Data Studio. I transform operational data into clear, decision-ready dashboards and build practical projects focused on sales analysis and cohort-based user retention. Seeking a role where business context drives the numbers.

WORK EXPERIENCE

PrAT "Severodonetsk Association Azot"

Deputy Head of Sales Department – Aug. 2019 – Aug. 2025

Key Responsibilities: Managed and coordinated product distribution and logistics via rail and road transport; developed strategic business plans and contracts; led a sales team of 10 employees; managed a client database of more than 200 accounts. Streamlined product complaint data processes directly with production units.

Achievements: Successfully optimized the reporting framework and improved sales reporting workflows; expanded and maintained a large-scale corporate client database.

1st Category Planning Economist – Sep. 1999 – Aug. 2019

Key Responsibilities: Analyzed and forecasted economic and business operations; managed cost-benefit analysis, pricing, and budgeting processes. Formulated and tracked production cost structures and created advanced technical reports within 1C ERP.

Achievements: Managed labor cost calculations and payroll budgeting systems, improving financial forecasting accuracy over a 20-year tenure.

VOLUNTEER EXPERIENCE – May. 2022 – Jun. 2025

Key Responsibilities: Volunteer Project Co-coordinator. Organized and supervised the production and logistics of bakery products for community relief. Coordinated support initiatives for orphanages and shelters in the Volyn region.

Analytical Skills

Financial/Cost Analysis, KPI Monitoring, Reporting, Budget Planning, Data Validation.

Soft Skills

Analytical thinking, Attention to detail, Time management, Critical Thinking, Active listening.

Education & Courses

Volodymyr Dahl East Ukrainian National University.
Master's degree in Enterprise Economics (Engineer-Economist)
Sep. 1995 - Jan. 2001

Google AI for Business.
AI tools for business process optimization and productivity improvement.
Completed: Dec. 2025

IT School GoIT. Data Analytics Professional Course.
Core focus: SQL (BigQuery/PostgreSQL), Power BI, Power Query, DAX, Google Sheets, Data Studio, Python, and Cohort Analysis
Mar. 2026 - Present
(Expected graduation: Oct. 2026)

PROJECT EXPERIENCE

User Retention & Cohort Analysis (SQL & Google Sheets)

https://github.com/olia-v-rudneva/olia-v-rudneva/blob/main/projects/user_retention/README.md

Tech: SQL (PostgreSQL/DBever), Google Sheets (Pivot Tables, Slicers, Conditional Formatting).

Summary: Cleaned and parsed inconsistent date formats using SQL CASE and text functions from raw tables. Built interactive triangular cohort matrices to calculate the monthly Retention Rate. Analyzed retention across 6 monthly cohorts; found organic users retained ~56% vs. 9% for promo users by Month 6, flagging low-quality promo acquisition.

Sales Analysis Dashboard

https://github.com/olia-v-rudneva/olia-v-rudneva/blob/main/projects/sales_analysis_dashboard/README.md

Tech: Google Data Studio (formerly Looker Studio), SQL (Custom Queries, Multi-table JOINS), Business Intelligence Engineering.

Summary: Engineered a unified dataset via complex SQL queries. Created custom calculated fields for dynamic Revenue metrics and designed an interactive dashboard with cross-filtering and 5 KPI scorecards for automated executive reporting.

Interactive Academic Performance Overview Dashboard

https://github.com/olia-v-rudneva/olia-v-rudneva/blob/main/projects/academic_performance_overview_dashboard/README.md

Tech: Power BI, Power Query, DAX.

Summary: Modeled multi-source data on a star schema with advanced DAX and time intelligence; surfaced a seasonal December grade dip (+3.47% MoM rebound) and used conditional-formatting matrices to flag underperforming classes and subjects for targeted support. Designed a 4-page interactive report with drill-through and tooltip pages, turning raw grade-book data into clear, decision-ready insights for stakeholders.
